October sees the release of the fourth volume in the Motown/Universal 'A Cellarful Of Motown' series. The new double album features 50 previously unreleased Motown cuts from right across the Motown artist spectrum – STEVIE WONDER, the TEMPTATIONS, the FOUR TOPS, MARVIN GAYE, the SPINNERS, the ORIGINALS, DAVID RUFFIN and many more – including obscure artists like the BLACKBERRIES, the UTOPIANS and the VERSATONES. You also get a hugely rare outing from ROBERT DOBYNE –who went on to join Chicago's the ARTISTICS. As ever the set comes with full track annotations and wonderful archive pictures ... in short unmissable
