The name might be new but the voice sure isn't. The warm, soulful tones of VULA MALINGA have graced tracks by MC COLE and BASEMENT JAXX, while more recently she's toured with BEVERLY KNIGHT and NATE JAMES. Now VULA steps into her own solo spotlight with her first single - 'If You Want It'. The cut, written and produced by VULA and partner BEN JONES, is a shifting mid-tempo mover with a catchy melody and authoritative vocal. For those who like their soul with a house edge there's also three dances mixes with the WOOKIEFIED tweak coming up tops. Label for this one is Diva Geek Records.
