Atlanta soul man JERMAINE ROBBINS impressed all and sundry with his last album, 'The Journey Within'. We were so impressed in fact that the long player hit no.2 in the UK soul album charts. What was impressive was the quality of the songs and the classy vocals that most commentators compared with a certain Michael Jackson no less!

Hot on the heels of 'The Journey Within', Jermaine has just dropped a new single... a bumpy, pleading ballad, 'What You Want' that should please modern soul fans and connoisseurs of upmarket, contemporary R&B. 'What You Want' is available from a download portal near you right now.
