One of the best Brit soul albums of 2018 was 'Get High' from East Anglia's DOGGETT BROTHERS; and one of the LP's best tracks was the classic dance groove, 'In The Flow'. Well the brothers – Greg and Carl – clearly like the tune 'cos they've just commissioned a brand new mix from Japanese mix meister Yuki 'T-Groove' Takahashi... and he's come up trumps with a belting, classic modern soul groove.

Where the original was edgy, a tad electro, the new tweak is tighter with a subtle change of emphasis that adds a seductive air to proceedings. T Groove wisely keeps the lovely Coco Malone vocal centre stage and a little embellishment here and there from Greg and Carl conspire to make this a future dance floor filler.

The Doggett Brothers; In the Flow Feat. Coco Malone (T-Groove Remix) will be available to download on all platforms on 05th April 2019. Label is Ashwood/P Vine.
